DEV MEETUP 2026

OPENNING WORD

S P O N S O R

SAEA

**SYRIAN AMERICAN
ENGINEERS ASSOCIATION**

SPONSOR

اتحاد طلابية سوريا

Syrian Students Union

فروع محافظة حلب

The Global Software Engineering Job Market

Amro Kudssi, MS. Software Engineering
SAEA IT Director

Agenda

- Software Industry overview
- Types of hiring Companies
- Software Job Market Comparison
- The Must-Have Skills for Syrian Engineers
- Career Paths Syrian Developers Can Target
- AI impact & Future outlook

Syrian American Association of Engineers and Architects

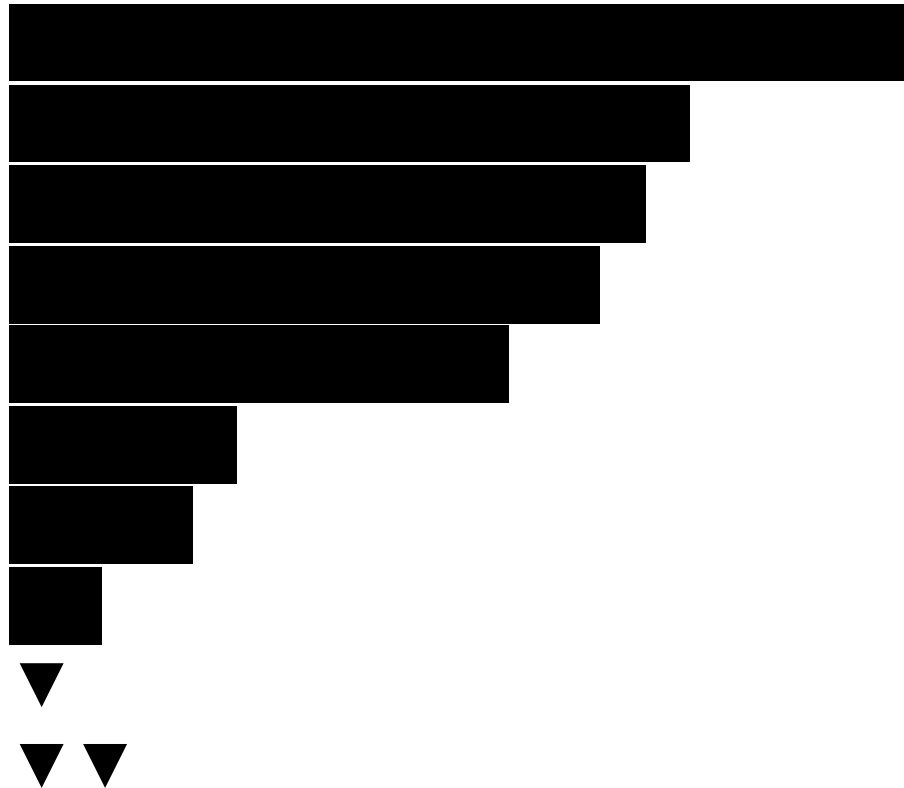

- Established in 2012
- Includes all types of engineers
- Support and improve the Syrian American Engineers abilities and skills
- Developing Syrian cities, systems, and infrastructure to advance Syria into a productive and proud member of the community of nations.

<https://saea-us.org/>

Projected SE Job Growth (2025- 2035)

AI/ML Engineers
Software Developers
Cybersecurity
Data Scientists
Healthcare
Teachers
Accountants
Administrative Staff
Data Entry Clerks
Cashiers

Example US Software Market

Largest technology ecosystem

- ~1.2 million software developers
- ~4+ million software professionals
- Expected growth 18% from 2025–2033 vs 4% Other occupations
- 170k Monthly hiring
- 7MM Openings

Innovation hub

Startup culture

Global influence

Software Job Market Comparison — USA vs Europe vs India (2026)

Metric	USA US	Europe EU	India IN
Market Size	Largest software market globally	Large but fragmented across countries	Fastest-growing talent market
Software Developer Population	~4+ million professionals	~6–7 million across Europe	~5.8+ million developers
Average Software Engineer Salary	\$110K–\$150K+	€50K–€100K	\$12K–\$35K
Senior Engineer Salary	\$180K–\$400K+ at top firms	€90K–€200K	\$25K–\$80K
Startup Ecosystem	Strongest globally	Growing rapidly	Very strong in fintech and SaaS
AI Investment	Highest worldwide	Increasing but behind U.S.	Growing rapidly
Remote Work Opportunities	High	High	Very high
Work-Life Balance	Moderate	Best globally	Low
Career Growth Speed	Fastest	Moderate	Fast
Global Headquarters	Most global tech leaders	Fewer global tech giants	Strong outsourcing and product hubs

Types of Employers

- Big Tech Companies
- Enterprise Software Companies
- Startups
- Non-tech companies hiring engineers

Understanding Multinational Companies

- Global operations
- Distributed engineering teams
- Shared platforms
- International opportunities
- Benefits
 - Worldclass experience, career growth, global exposure
- Challenges:
 - Entry job, culture, time zones, complexity

Must-Have Skills for Syrian Developers

Programming Fundamentals

- OOP/OOD
- Data structures
- Algorithms
- APIs
- Debugging
- Testing

Recommended languages:

- Python
- Java
- JavaScript/React/Typescript

Git/GitHub

- Git commits
- Branches
- Pull requests
- Code reviews
- Merge conflict resolution

Build an Application

- React
- Node.js
- REST APIs
- PostgreSQL
- Java/Spring

Must-Have Skills for Syrian Developers

Cloud Fundamentals

- AWS
- Azure
- Google Cloud

Deploying applications

- Containers
- Databases
- Authentication

Database

- SQL
- NoSQL

AI Engineering

- Claude Code
- AI Coding Agents
- AI Prompting

Must Understand Skills for Syrian Developers

- Distributed System Design
- Scalability
- Microservice architecture
- Cloud Native Apps
- Caching
- APIs
- Message / Event-driven systems
- Authentication

Must-Have Skills for Syrian Developers

Business Acumen

- Who is the customer?
- What problem are we solving?
- How does this create value?

Communication

- Meeting Participation
- Write documentation
- Explain technical decisions
- Communicate with distributed teams

Career Paths Target

AI Engineer

Cloud Engineer

Cybersecurity Engineer

Data Engineer

DevOps Engineer

Site Reliability Engineer (SRE)

Hiring Process

- Resume Screening
- Recruiter Interview
- Technical Assessment
- System Design
- Behavioral Interview

Compensation & Career Growth

Career ladder

- Intern
- Junior Engineer
- Software Engineer (Mid-level)
- Senior Engineer
- Principal Engineer
- Engineering Manager
- Sr. Engineering Manager
- Director
- Sr. Director
- VP Engineering
- SVP
- EVP (CIOs, CTOs)

Salary, Bonus, Stock, Benefits

Impact of Artificial Intelligence

- Code generation
- Automation
- Productivity gains
- New skill requirements

Growth Trends (2026–2030)

- Generative AI
- Agentic Systems
- Robotics
- Cybersecurity
- Healthcare Tech

Key Takeaways

- Continuous learning
- Learn AI-assisted engineering
- Build real products
- Improve Communication
- Leadership matters
- Collaborate globally

Preparing for Interview

Contents

1

About Me

Who Am I ?

2

Preparation factors

What factors you should utilize

3

Common mistakes

As interviewer what mistakes I saw through my career

Salam!

AbdulQader Qassab

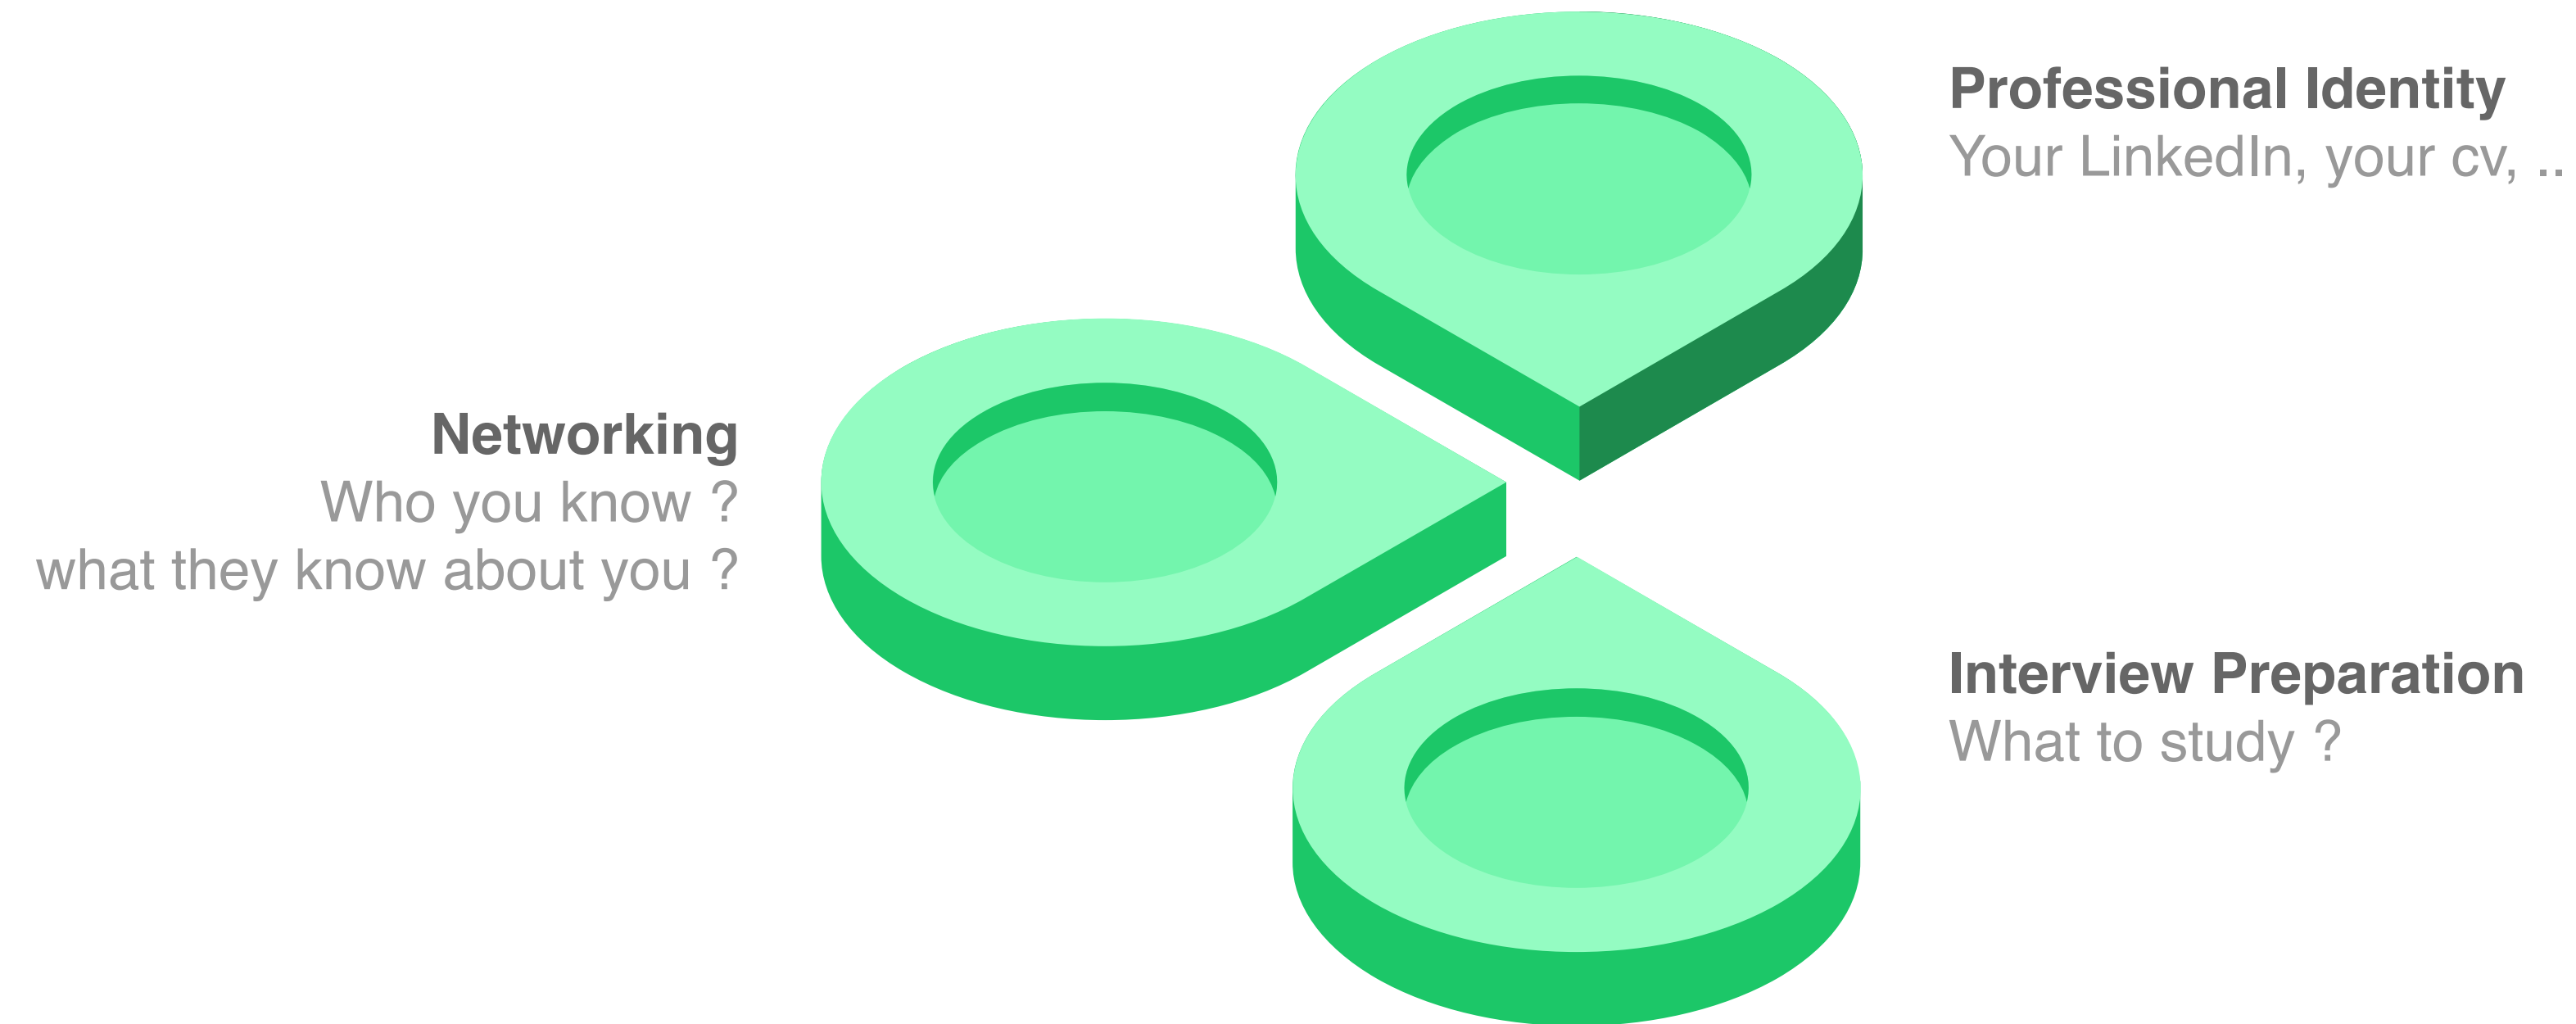

Building people, products,
and opportunities.

“لو أنكم تتوكلون على الله حق توكله
لرزقكم كما يرزق الطير”

رواه الترمذي —

Opportunity = Skills x Trust x Visibility

Networking Why it matters ?

Companies use multiple channels

Job boards

77%

Employee
referrals

71%

Company
websites

67%

+35%

**Referral interviews are more likely
to become job offers.**

vs. online applications

Networking builds trust before the interview.

Sources: CareerBuilder 2024 Hiring and Recruiting Trends | Glassdoor Economic Research (Jul 2024 – Jul 2025)

CareerBuilder: Survey of recruiters on channels used to find candidates.

Glassdoor: Referral-sourced interviews were 35% more likely to result in a job offer vs. online applications.

Professional Identity

How do people **remember** you?

Before the interview, people already form an impression.

Reliable

People trust you to get things done.

Clear

You communicate simply and effectively.

Useful

You solve problems and add value to others.

Consistent

You show up and follow through.

Skilled

You continue to learn and improve.

People don't only remember what you know — **they remember how you show up.**

Key takeaway: Build a professional identity that is clear, trustworthy and valuable everywhere you are visible (CV, LinkedIn, portfolios, conversations, contributions).

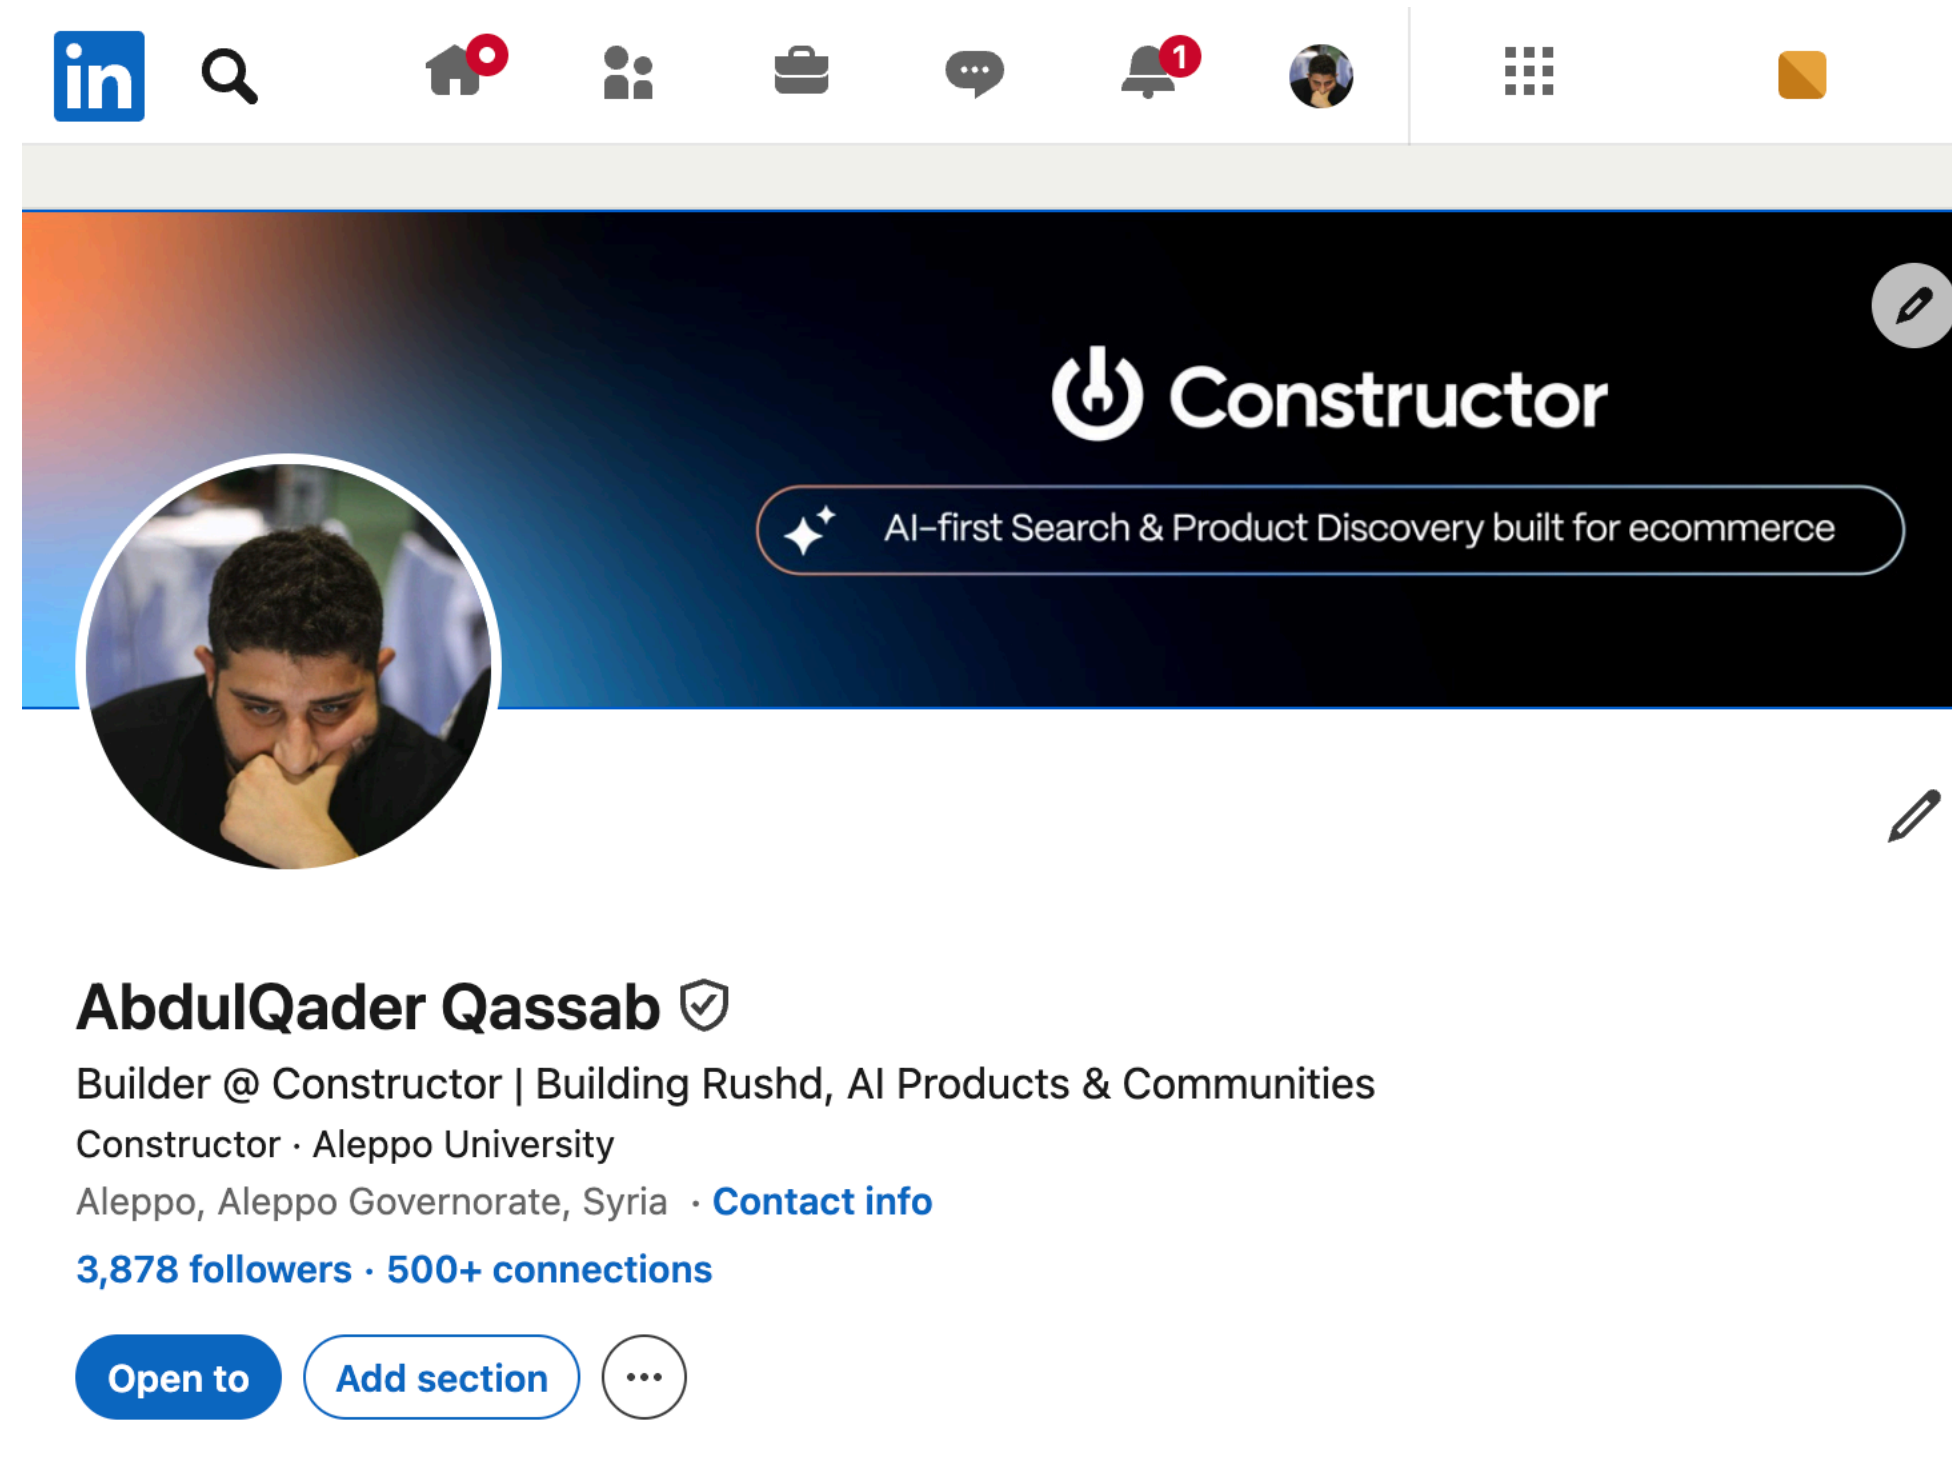

Your identity is your long-term advantage.

in LinkedIn

Your public
professional page.

Be Discoverable, not famous

-  **Clear Headline**
Tell people who you are, what you do, and the value you bring.
-  **Simple About**
Explain what you do, who you help, and what you're interested in.
-  **Featured Projects**
Show your best work. Projects prove your skills better than words.
-  **Relevant Activity**
Share, comment, and engage. It shows you're learning and contributing.

In 10 seconds, people should understand who you are.
Make it clear. Make it trustworthy. Make it you.

Interview Preparation

Problem Solving

How to think of a problem ?
how to solve it ? What are
the tradeoffs ?

Tech fundamentals

Do you know the basics ?

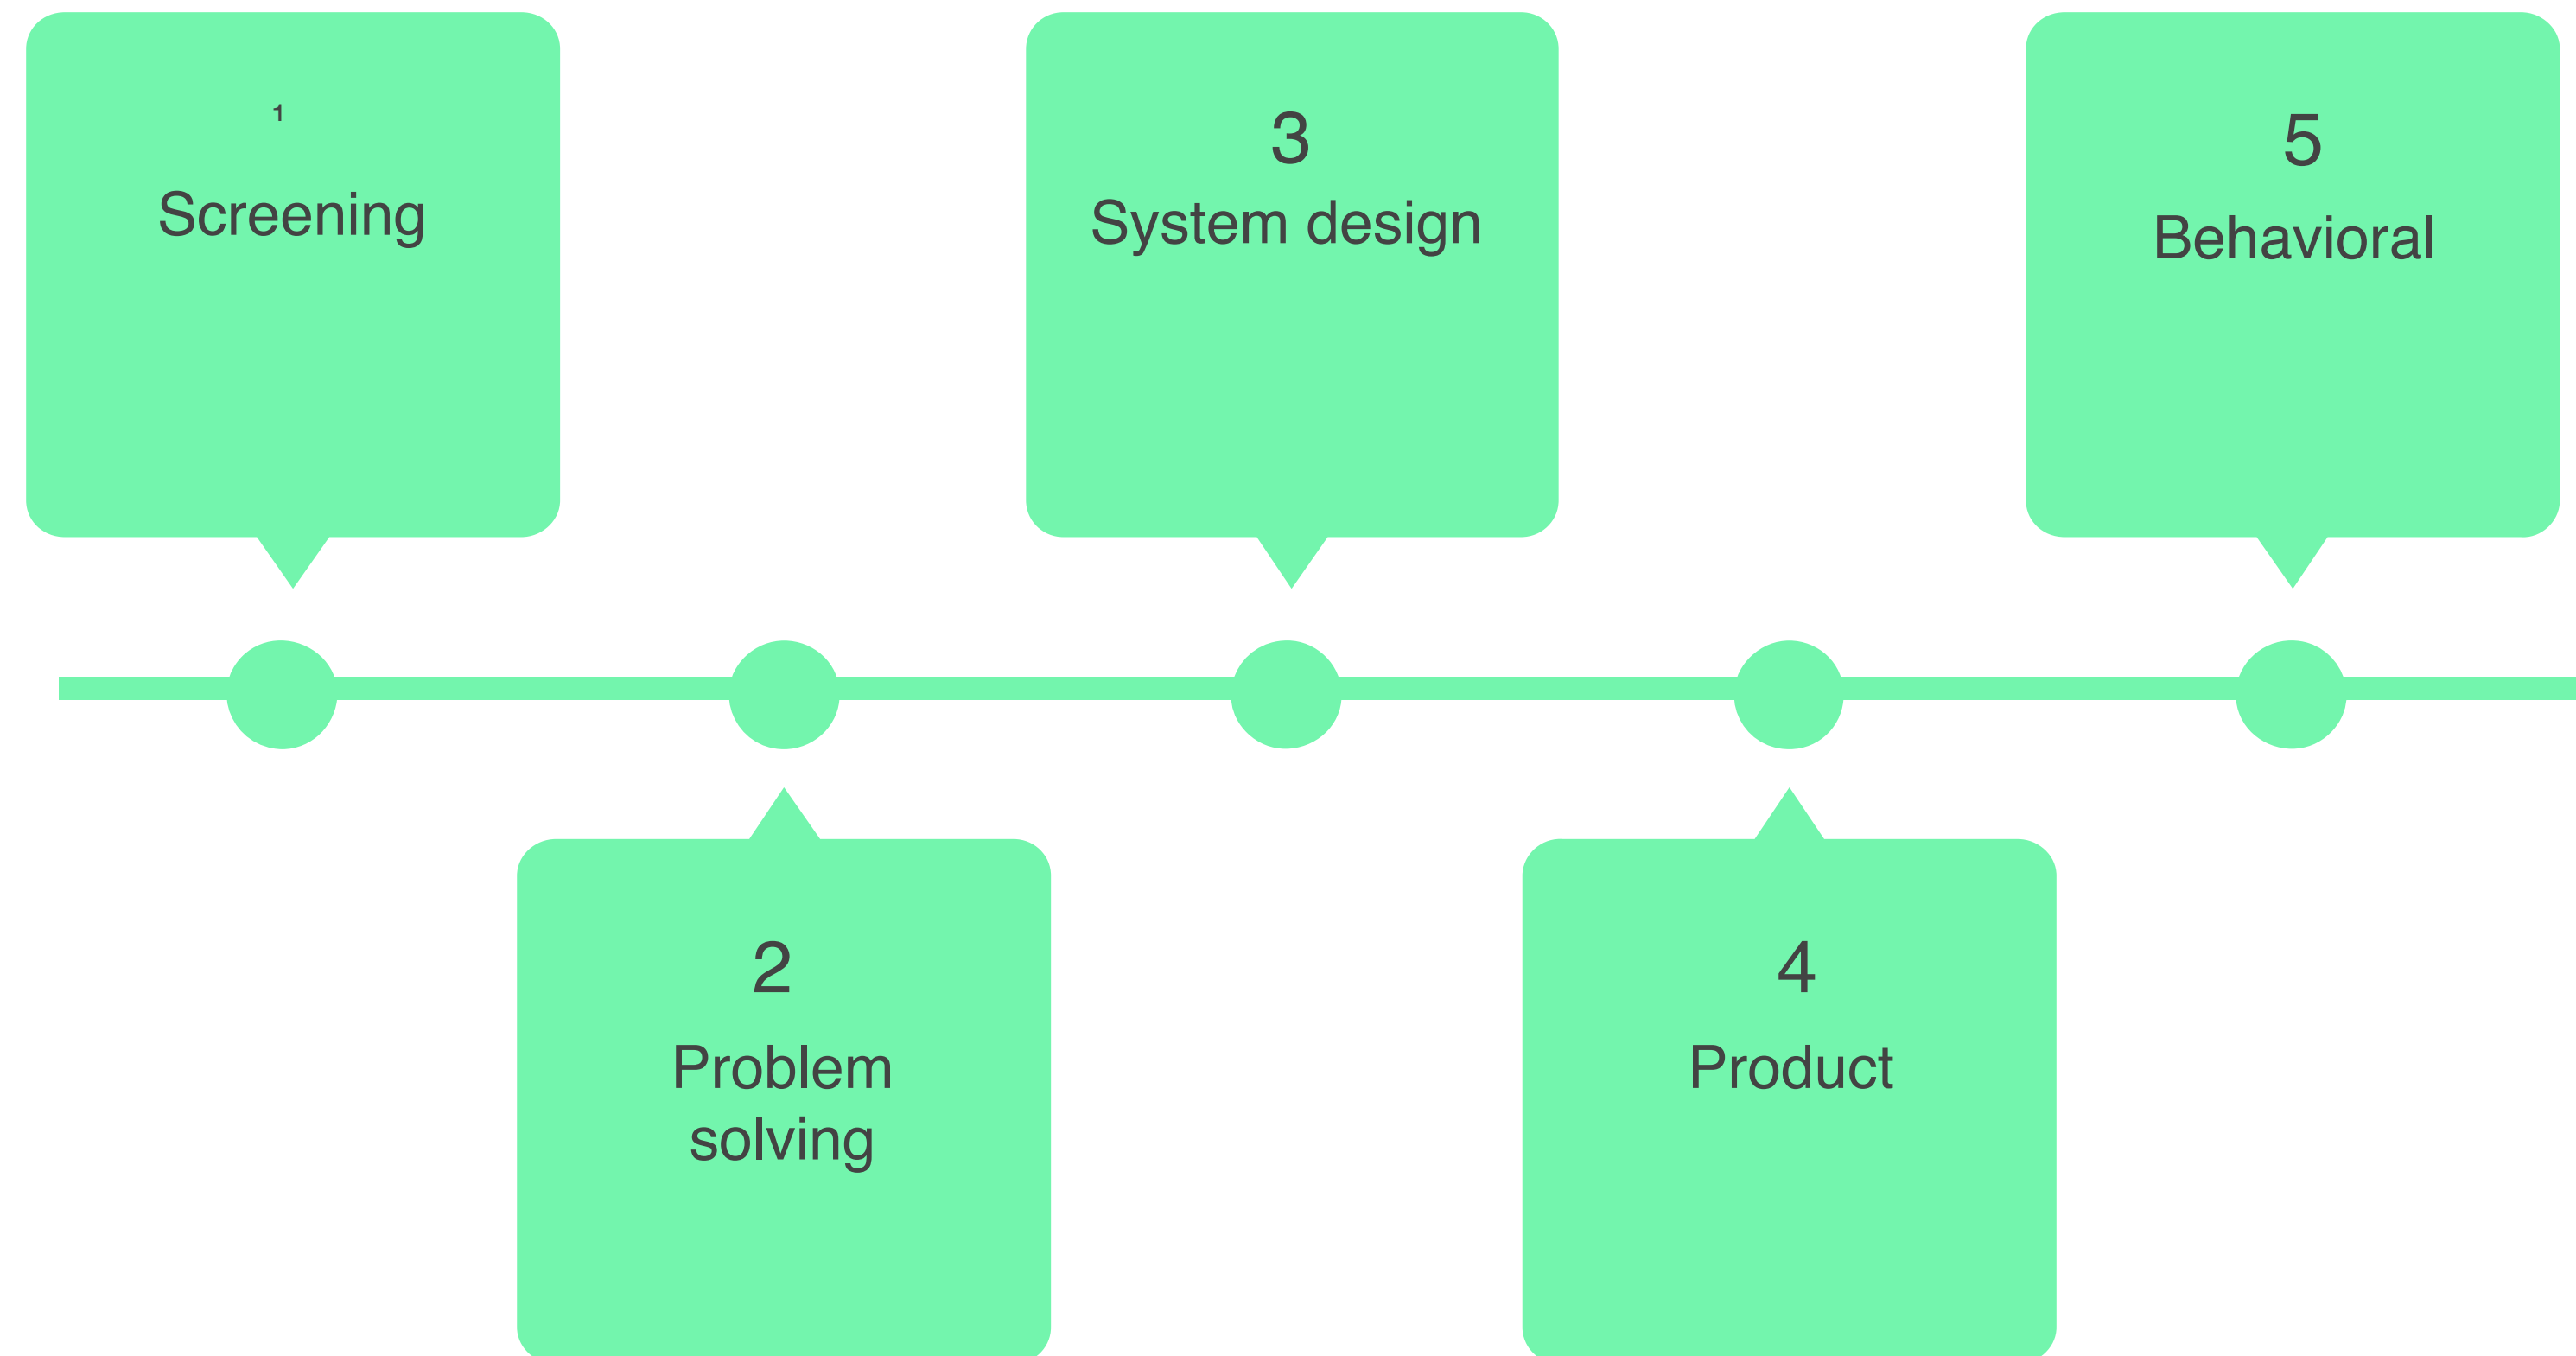

Soft Skills

Can people work with you ?

Homework

who's the interviewer ?
Why this company ?
Professional TAYS?

Ask About the process

Common mistakes

Vague answers

No clear or deep understanding

Weak Communication

Unclear English, messy explanation

Silent

Solve problems without any thinking or explanation

Fake confidence / lie

Claiming more than you know

Low confidence

Feel not prepared

Weak ownership

No clear role / responsibility

Final Thoughts

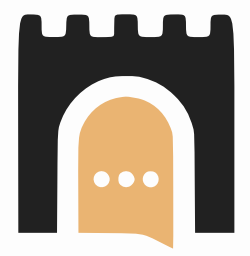

“
**Don't wait
silently.
Prepare visibly.**
”

التوفيق من الله،
والتحضير علينا

Thank you

مخالفات شرعية يقع بها المطورون

- كل جسد نبت علي حرام فالنار اولي به
- ... ثُمَّ ذَكَرَ الرَّجُلَ يُطِيلُ السَّفَرَ أَشْعَثَ أَغْبَرَ، يَمُدُّ يَدَيْهِ إِلَى السَّمَاءِ، يَا رَبَّ، يَا رَبَّ، وَمَطْعَمُهُ حَرَامٌ، وَمَشْرَبُهُ حَرَامٌ، وَمَلْبَسُهُ حَرَامٌ، وَغُذِيَ بِالْحَرَامِ، فَأَنى يُسْتَجَابُ لذلك؟!
- وَتَعَاوَنُوا عَلَى الْبِرِّ وَالتَّقْوَىٰ ^{صل} وَلَا تَعَاوَنُوا عَلَى الْإِثْمِ وَالْعُدْوَانِ.

مخالفات شرعية يقع بها المطورون

1. برمجة التطبيقات المحرمة وتسهيل المعاصي

- تطبيقات الفجور والشركيات

- تطبيقات القمار والمحرمات

- الأنظمة الربوية

مخالفات شرعية يقع بها المطورون

2. برمجة الغش والخداع الأكاديمي والمهني المحرمة

- الغش الأكاديمي

- إخفاء العيوب

- مخالفة العقود

مخالفات شرعية يقع بها المطورون

3. التعدي على حقوق الملكية الفكرية والقرصنة
• استخدام البرامج المقرصنة

• نشر الكراكات

مخالفات شرعية يقع بها المطورون

4. انتهاك الخصوصية والتجسس

- أدوات الاختراق

- سرقة البيانات وتتبع المستخدمين

ما أفعل الآن؟

• رزقك مقسوم

• تأكد من طبيعة عمل الشركة بوضوح قبل التعاقد

• إن كانت موظف بالفعل، غادر الشركة في أقرب وقت ولا تباشر بالحرام مهما كان (إن كان بعض عمل الشركة حلال).

• تصدق بالمال الذي كسبته بالحرام ولا تنتفع به (إلا لسد الرمق).
